

**Public Attention!**  
It respectfully solicited by the subscriber, to an invaluable preparation, the merits of which have been tested by time, and are sustained by undoubted testimony.

## DR. RELFE'S Botanical Drops!

are every year increasing their long established reputation. They have outlived many rival preparations, and are continually gaining upon public confidence. The Botanical Drops have been successfully administered for many years, as a thorough remedy for that well known and prevalent class of inveterate diseases which originate from a vitiated habit of body, or an hereditary predisposition in the patient, and generally appear under the various and distressing shapes of Scrofula, Salt Rheum, Leprosy, St. Anthony's Fire, Fever Sores, White Swellings, Scurvy, Foul and Obdurate Ulcers, Sore Legs and Eyes, Scald Head, and Venereal Taint.

In the last mentioned condition of the system, the Botanical Drops will be found to eradicate the lurking poison, where mercury has totally failed; and thus prevent the patient from entailing the seeds of an hereditary disease on his offspring.

Dr. Relfe's Botanical Drops are successfully used in cases of violent eruptions after the measles—red blotches—pimples on the face—festering eruptions on the skin—and other diseases of the external surface; and are one of the best Spring and Autumnal physics known, to free the system from humors.

A physician of eminence, who had witnessed the efficacy of this article, had the candor recently to acknowledge to the proprietor, that he considered it the best medicine known, for the complaints for which it is intended, and that it ought deservedly to stand at the head of the whole class of such remedies.

Price \$1 a bottle, or 6 bottles for \$5.

## WHITE TEETH AND HEALTHY GUMS!

Those who would retain or restore these desirable personal advantages, are assured that no composition can be obtained superior to the

**BRITISH ANTISEPTIC DENTIFRICE.**  
This is an elegant and pleasant preparation in every respect, and has, for many years past, given universal satisfaction wherever it has been used.

The Antiseptic Dentifrice is exempt from acid and other deleterious ingredients, which too frequently enter the composition of tooth powders in common use, and it whitens the enamel of the teeth without doing it the least injury. The regular use of this admired powder, by purifying the mouth and preventing the accumulation of tartar, operates as the best preventive of the Tooth Ache. The Dentifrice removes discolorations, and restores the beautiful native whiteness of the enamel. As its application braces and strengthens the Gums, it secures to them their healthy and florid hue, and, by removing all offensive foreign accumulations from the teeth, preserves the natural sweetness of the breath. Price 50 cents.

\*None genuine unless signed on the outside printed wrapper by the sole proprietor, T. Kidder, immediate successor to the late Dr. W. T. Conway. For sale, with all the other "Conway Medicines," at his Counting Room, No. 99, next door to J. Kidder's Drug Store, corner of Court and Hanover streets, near Court Hall, Boston.

And, by his special appointment, by WM. STABLER, Fairfax street, Alexandria.

\*Large discount to those who buy to sell again.

## Consumption!

**Asthma! & Catarrh!**

IN that long train of diseases which seem to grow with the growth of civilized society, Consumption takes the lead in its relentless inroads upon human life; yet this dreadful disorder is easily overcome in its earlier stages. It is only when neglected that it arrives at the terrific maturity which so often baffles the sagacity of professional science. An obstinate cough is the customary forerunner of the pulmonary consumption. Improper neglect in the timely administration of simple and salutary remedies, is sure to be repayed by a dreadful succession of consumptive symptoms—oppression of the breast; greenish and bloody spittle; ulcerated lungs and hectic fever; shriveled extremities, and general emaciation of the whole body; prostration of strength; flushed cheeks; swollen feet and legs; and at last, in the full possession of the mental faculties, and while hope still whispers her flattering tale—cold extremities, and a premature death.

For the various stages of this complaint, one of the most approved remedies ever discovered is

## DR. RELFE'S ASTHMATIC PILLS.

This exceedingly powerful, and yet equally safe and innocent preparation, has effected thorough and rapid cures upon patients supposed to have been far advanced in a confirmed Consumption, and who have exhibited the appearances which usually indicate a fatal termination of the disorder.

As the Pills require in ordinary cases no confinement, they may be administered with confidence and safety to all ages and classes of people. Unexampled success has hitherto attended their administration in a great variety of cases; and the proprietor can refer to a multitude, which testify to their efficacy in reviving the emaciated victim from the bed of disease, and restoring him to the blessings of accustomed health and activity.

Price \$1 for whole boxes of 30 pills, and 50 cents for half do. of 12 pills, with directions.

## Debilitated Females!

THE complaints peculiar to the female part of the community, have been long successfully treated by the administration of the Aromatic Pills, originally prescribed and compounded by Dr. Relfe. They cleanse the blood from those disorders of the female constitution, for which the pills are an effectual specific; they restore a free circulation, reform the irregular operations of the sanguiferous system, and rectify the disordered habits. The proprietor's confidence in the superior excellence of this equally innocent and powerful preparation, is founded on the most decisive testimony from many restored patients. He can assure this portion of the public, that when

## DR. RELFE'S AROMATIC PILLS FOR FEMALES

are regularly taken, according to the directions, accompanying them, they revive and establish the desired healthy habits, and restore to the pallid countenance the natural glow of health and good spirits.

Married ladies will find the pills equally useful, except in cases of pregnancy, when they must not be taken; neither must they be taken by persons of hectic or consumptive habits. They may be used successfully by either men or women in all Hypochondriac, Hysterical or Vapourish disorders. In all cases of this description, the pills purify, invigorate, and revive the disordered system. Price \$1 50 a box.

\*None genuine unless signed on the outside printed wrapper by the sole proprietor, T. Kidder, immediate successor to the late Dr. W. T. Conway. For sale, with all the other "Conway Medicines," at his Counting Room, No. 99, next door to J. Kidder's Drug Store, corner of Court and Hanover streets, near Court Hall, Boston.

And also, by his special appointment, by WM. STABLER, Fairfax street, Alexandria.

\*Large discounts to those who buy to sell again.

## To Rheumatic Invalids!

Persons suffering under rheumatic affection are respectfully assured that they can obtain of the proprietor and his agents a safe and admirable remedy for Rheumatism, however obstinate the disorder may be, and in all its different stages.

## Dr. Jebb's Liniment!

will afford immediate relief to the patient, and has sometimes been attended with such extraordinary success as to cure the most distressing Rheumatism in twenty-four hours, even when of years standing. This highly valuable Liniment is recommended with a confidence founded on the experience of many

years, not only as a cure for that excruciating disease, but as an excellent application for Stiffness of the Joints, Numbness, Sprains, Chilblains, &c.

(This article is considered so superior to every thing else, and to possess such uncommon virtues, that it is ordered from all parts of the country.)

An Agent recently writes: "Please send me a further supply of Jebb's Liniment the first opportunity—I shall probably send a considerable quantity, as it is recommended by some of our physicians very highly, although contrary to their rules and regulations to give encouragement to such (or patent) medicines." But is a most decided proof of their confidence in its invaluable properties.

Another agent writes: "I wish you to forward me some more of Jebb's Liniment, which has recommended itself very highly." Price 50 cents a bottle.

## The Painful and Debilitating Complaint of THE PILES

Receives immediate relief, and in numerous instances has been thoroughly cured, by the administration of

## DUMFRIES' REMEDY FOR THE PILES.

THIS approved compound also mitigates and removes the symptoms which frequently accompany that disorder, and increase the danger of the patient, viz: pains in loins, headache, loss of appetite, indigestion, and other marks of debility.

A relieved patient writes from a distance: "It is just but to inform you, that I have used your Dumfries' Remedy for the Piles for some time past, and have found it eminently successful."

The remedy is quite innocent, and may be administered to all ages and both sexes. Plain and ample directions, with a description of the complaint, accompany each package, which consists of two boxes, one containing an Ointment, and the other an Electuary.

Price \$1 for both articles, or 50 cents where but one is wanted.

## DUMFRIES' Itch Ointment!

THE extensive sale and established reputation of Dumfries' Itch Ointment, encourages the proprietor to recommend it with renewed confidence to the public, as a most innocent as well as powerful application for this annoying disease. The most inveterate cases have been cured in one hour by this esteemed Ointment. It contains no mercury, or other noxious ingredient, and may be confidently applied even to the youngest children, or to pregnant females—

\*None genuine unless signed on the outside printed wrapper by the sole proprietor, T. Kidder, immediate successor to the late Dr. W. T. Conway. For sale, with all the other "Conway Medicines," at his Counting Room, No. 99, next door to J. Kidder's Drug Store, corner of Court and Hanover streets, near Court Hall, Boston.

And also, by his special appointment, by WM. STABLER, Fairfax street, Alexandria.

\*Large discounts to those who buy to sell again.

## Albion Corn Plaster!

THE Albion Corn Plaster softens the corn, however

old and tough, and extracts it to the very roots. The relief afforded is gentle, immediate, and thorough.

The proprietor begs leave to submit the following case, from Mr. Stowell, who is well known to the inhabitants of this city, especially at the South End and South Boston, as a very worthy and respectable citizen:—

A CASE.  
Sir—I do not hesitate to give my most unqualified approbation in favor of your valuable Albion Corn Plaster. By the use of less than a box, Mrs. Stowell has been cured of a corn on each foot, which had been exceedingly troublesome and painful for years, and I think it but justice to your invaluable preparation to add, (for the encouragement of those who, owing to repeated disappointments in the various remedies resorted to, have finally despaired of a cure,) that your Plaster cured her corns, after trying other highly recommended remedies to no purpose; and what increases my confidence in the superiority of your Plaster, is the fact, that it has been used by several of my neighbors with equally good success. (Signed)

SETH STOWELL, Keeper of the Toll-house, South Boston Bridge.

Mr. T. KIDDER, Proprietor of the Conway Medicines, Boston, June 17th, 1839.

\*Price 50 cents.

## SORE AND INFLAMED EYES.

THE studious, the weak, and others, who are troubled with soreness or inflammation of that delicate organ, will be able to obtain a most pleasant and invaluable application, in

## DUMFRIES' EYE WATER!

This well established and perfectly perfect eye is perfectly innocent, and gives immediate relief, even in very aggravated cases of soreness and inflammation.

Price 25 cents.

## THE TOOTH ACHE.

THIS agonizing disorder is cured in its most painful stages, by one of the most simple as well as powerful remedies known in modern practice—the

## CAMBRIAN TOOTH ACHE PILLS

afford instant relief, without inflicting the slightest injury on the teeth. They are applied externally to the parts affected, with the greatest ease and expedition, and generally operate as a soothing lenitive to the suffering patient. Price 50 cents a box.

## Dyspepsia

OF most obstinate character, after having baffled the skill of the most eminent physicians, and withstood the most highly recommended medical preparations, has been checked, relieved, and cured, in a number of instances in and about this city, by using, for a short time, Dr. Relfe's

**VEGETABLE SPECIFIC, AND ANTI-BILIOUS PILLS.**

In connexion, according to the directions accompanying the Specific. It is also one of the best medicines known for Sick Headache, Sickness at the Stomach, Nausea, and Flatulencies.

Price of the Specific and Pills, 50 cents each.

\*None genuine unless signed on the outside printed wrapper by the sole proprietor, T. Kidder, immediate successor to the late Dr. W. T. Conway. For sale, with all the other "Conway Medicines," at his Counting Room, No. 99, next door to J. Kidder's Drug Store, corner of Court and Hanover streets, near Court Hall, Boston.

And also, by his special appointment, by WM. STABLER, Fairfax street, Alexandria.

\*Large discount to those who buy to sell again.

## PATENT RIGHT SECURED. BEWARE OF IMPOSITION.

## SHEPHERD'S PATENT SPECIFIC OINTMENT, (formerly Judkins')

Prepared by C. HERSTONS, near Fredericktown, Maryland.

RICHMOND, Va. July 15, 1830.

THE public will be pleased to understand that I was the original discoverer of Judkins' Ointment, and sole proprietor of the patent from September, 1817, until the expiration of the same; but, having connected myself with Dr. Judkins in the commencement, I permitted the Ointment to bear his name. The term of the patent having expired on the 26th June, I have made an improvement in the same, and taken out a patent thereon.

N. SHEPHERD.

Imposition having been practised upon the public by a spurious article, bearing the name of "Judkins' Ointment," the proprietor avails himself of the

authority granted to him in his letters patent, now to call the Ointment after his own name. Henceforth it will be known by the name of

## SHEPHERD'S PATENT SPECIFIC OINTMENT, (formerly Judkins')

When I first made and prepared this Ointment, and had, in several instances, experienced its good effects, I sent it to several physicians, with instructions in what cases to apply it, who were of opinion that the Ointment would be a valuable public benefit. I concluded that the Ointment would occasionally fall into many hands, some of whom would probably undertake to make it, and knowing the difficulty of the process—nevertheless, it might be procured in this adulterated situation, as it might in some degree resemble the original—and in this way its good effects would be obliterated. Under these considerations, I secured the original and certain remedy for those obstinate diseases, some of which have so long baffled the skill of medical science:

1st White swellings of every description;  
2d Sore legs and ulcers of long standing;  
3d Scirrhus or glandular tumors, particularly those hardened tumors in women's breasts, which oftentimes terminate in ulcerated cancers;

4th Felons; or what some people know by the name of catarrhs, of every description;  
5th Rheumatic pains of the joints;  
6th Sprains and bruises of every description, or in whatever part situated;

7th Tetter of all kinds. In this complaint the patient, in applying the ointment, must keep the part out of water;

8th Chilblains or parts affected by frost.

It is also one of the best remedies for burns and scalds. It eases the pain and draws the fire out in a short time.

For inflamed women's breasts and glandular swellings, it is superior to any medicine yet known to the medical faculty. It is much safer than mercurial applications, (as it does not contain the smallest atom of any preparation of the mineral,) because it does not lay the patient liable to injury from exposure to cold.

This Ointment has cured sores of many years standing. Where it is impossible or imprudent to heal the external sore, in consequence of the bones becoming carious or rotten, it will stop the progress of the caries, increase the quantity of discharge, remove the offensive smell, and ease the pains.

It cures the worst Felons and Whitlows, on application of forty-eight hours.

CERTIFICATES:  
From the Hon. John C. Coche, Member of the House of Representatives in Congress.

WASHINGTON, March 22, 1836.

Sir—My son having been afflicted for five years with white swelling, and having applied every remedy recommended by the most eminent physicians within my reach without success, I at length procured one jug of Dr. Judkins' Patent Specific Ointment, and made the application according to the directions accompanying the Ointment, and state, for the benefit of the afflicted, that before one jug was used, a perfect cure was effected. My son has enjoyed good health ever since. I have no doubt that to the Ointment alone he is indebted; for nothing else was used for more than nine months before the application of the Ointment. Respectfully,

JOHN COCKE.

Dr. Wm. Guntton, Washington City.

From L. P. W. Balch, Esq. Counsellor at Law, Frederick Md.

FREDERICK, Md. May 6, 1831.

Mr. C. Herstons—I deem it proper to state, for the benefit of the public, that, several years since, two of my children were afflicted with scald head of an inveterate character. My family physician, Dr. John T. Wilson, of Leesburg, Va. who was very skillful and judicious in his practice, in vain endeavored by every means to effect a cure. At length Judkins' Ointment was applied, and the affection was permanently relieved. Very respectfully, your obedient servant,

L. P. W. BALCH.

From the Honorable John Taliaferro, Member of Congress, dated

WASHINGTON, January 22, 1829.

Sir—It has been my wish, for a considerable time, to communicate to you the good effect with which I have used the Ointment invented by a Mr. Judkins, and which I now understand is made and sold by agents appointed by yourself. I have applied this Ointment during the last three years to every species of tumor and wound, without failure to produce a cure in every instance. I consider it the most decided and efficient remedy in all cases of tumor, be the cause what it may; and I have found nothing so good for wounds of any description. It may be proper to add, that the cure of a tumor called white swelling, given over by the most distinguished physicians as incurable, and which I decided would, without amputation, prove fatal to the patient, was, under my immediate notice, effected by the use of Judkins' Ointment, and the patient is in fine health. His limb affected by the tumor being restored to a perfect state of soundness. Also that the leg of an aged man which had been wounded, and exhibited one dreadfully ulcerated surface from the knee to the foot, and which, for more than two years, had been considered incurable, was effectually cured by the application of Judkins' Ointment. I mention these two cases, which fell under my immediate notice and management, as a decided evidence of the efficacy of this remedy in cases of tumor and ulcers: I have experienced, as decidedly, the good effect of this remedy in the cure of Felons, and of every species of fresh wound. It seems to me that any one who will observe on the operation of this Ointment, must be satisfied as to its beneficial effect. I can with the utmost confidence recommend the use of this valuable remedy. I am, sir, very respectfully,

JOHN TALIAFERRO.

N. B. To more fully guard the public, (the proprietor) C. Herstons's name will appear in his own handwriting, written through the circle outside the ointment pot.

Sold by appointment, in Alexandria, wholesale and retail, by

WM. STABLER, Druggist, Fairfax street.

## DR. LEE'S GENUINE PATENT New London Bilious Pills.

JUST received, a fresh supply of the above useful Medicine, direct from Dr. Lee's Dispensary, 12th mo 30th, 1833.

W. STABLER.

The following extract is published by Dr. Lee's authority, viz:—

Extract of a letter, written by a very respectable gentleman, residing in Baltimore, to the subscriber, who deems it his duty, though unauthorized, to lay it before the public, withholding the writer's name, for particular reference, should any require it personally.

SAM. H. P. LEE.

BALTIMORE, August, 1828.

Doctor S. H. P. LEE, New London, Conn.

DEAR SIR—It is now upwards of twenty years that I have used your New London Bilious Pills in my family, and always found them an efficient purgative in almost every description of disease, and believe they saved many a long doctor's bill by their early and timely use. I never found their accustomed certainty to vary in their operation and effects until a few months past; and having, since then, been sadly disappointed in every instance of using them, I began to conclude that you had made your fortune, and abandoned their manufacture to mercenary and unfaithful hands. Under this impression, I accidentally saw an advertisement of yours in a New York newspaper, designating spurious imitations from your own manufacture, by having your WRITTEN SIGNATURE to each bill of directions, and that in no instance were the imitations signed with pen and ink, although a perfect copy in every other respect. Finding those I had without this test, I began to suspect that "all was not fair in medicine, as well as in politics, and called at several of our apothecaries for your pills, with your written signature. I found many without this test, but none with it, until I came to the Messrs. Keerle's, who assured me they had them direct from you. I procured a box, and on using them, found the same effects from them I had always experienced, and am so much rejoiced on finding my

self in possession of a medicine I so highly prize, that that I cannot, in justice, refrain from giving you this information.

To avoid the imposition of counterfeits and spurious imitations, as related above, the purchaser has only to examine the bill of directions covering each box, and if signed at foot, in my own handwriting, immediately under my printed name, they are genuine, and prepared by me; but if only the printed name is affixed, they are spurious, and to be avoided.

S. H. P. LEE,

New London, Conn. Dec. 1823.

## HYGEIANISM.

THE following testimonials of the superior efficacy of the HYGEIAN MEDICINES in the cure of our diseases, speak in a language which must carry conviction to the minds of the most skeptical:—

BROWN UNIVERSITY, Dec. 25, 1833.

To Mr. Samuel Young, Agent for the Hygeian Vegetable Universal Medicines, for the State of Rhode Island.

Sir—Gratitude to the Great Preserver of Men compels me, in compliance with your request, to give a brief statement of a cure, which, I think, I received from the Hygeian Medicines. I give publicity to the same the more cheerfully, because thereby, perhaps, I may be useful to some of my fellow-men, who may be afflicted with a similar disease.

My complaint was called Pulmonary Consumption, and that my real condition may be explicitly understood, I state, in connexion with the relation of the cure, some of the symptoms of the disease. In September, 1832, I caught a severe cold, which settled on my lungs; I was confined to my room about one week, with a fever, attended with considerable cough; my cough soon abated, and apparently, I was regaining my health; when, after about three weeks, in the course of the night, having returned the evening before in usual health, I found myself bleeding at the lungs. I had not, to my knowledge, received any hurt or strain, to which the cause of this might be attributed. I spat blood, occasionally, for four days; it left me with some fever, pain in the breast, very little appetite, and withal, very weak.

A few weeks determined that I was in a decline. I received the attention of the most skillful Physicians, who often seemed to check the progress of the disease, and inspire the hope of a speedy recovery. But relapse upon relapse, and each bringing me lower than the preceding, seemed to baffle all human skill, and warn me of an approaching dissolution. Thus, months after the first attack, a "tubercle" (small ulcer) broke in the lungs, after which I spat blood, one day. I continued to decline two months longer, when I obtained the Hygeian Medicines. I had now been unable to sit up a whole day, for four months and a half. My feet were cold and lifeless, sleep unsound, cold night sweats constant, tongue furred, pulse in the afternoon from seventy-five to one hundred per minute, food produced great distress, appetite very poor, pain in the breast directly opposite the heart, attended with some cough, &c. &c. Such was my condition, when I first became acquainted with the Hygeian Medicines. I commenced taking the medicines, four pills at a dose, and increased the dose daily, one up to the number of twelve. In about ten days, my appetite became good, and food produced no distress, sleep soon became sound and refreshing, and in about forty days the symptoms of the disease had nearly all disappeared.

I took the medicine six days regularly every night, averaging about ten pills at a dose, the greatest number taken at any one time was fifteen. After this, I took about four doses a week, until I had taken about thirteen hundred pills, when I found myself restored to health. After I commenced the Hygeian, I took no other medicine. One year from the first attack, I was able to resume my studies in college, where I have since remained without any recurrence of the disease. Hitherto I have been convalescent, and if my strength is not yet fully returned, I am certain I have less pains, and am more free from temporary sickness, than at any time since my earliest recollection. Yours, with respect,

HORACE T. LOVE.

DR. H. SHEPHERD MOAT.

Dear Sir—I wish to state that my sister, after severe suffering, and employing a medical man three years, was relieved by the use of the Universal Medicines. Her complaint was a violent pain and soreness in her side; indeed, to use her own expression, her side was a violent burning pain, almost intolerable; so severe, that she could not sit up for upwards of three years. It was occasioned by over-lacing hers self, and perhaps, over exertion with it. After using a few doses of No. 1 and 2, alternately, about eight pills for a dose, the pain decreased, and, by perseverance in their use, she is now restored to health; and I have no objection to this case being made public for the benefit of others; and am, dear sir, yours truly,

H. DYER.

Lowell, Massachusetts, Feb. 8, 1834.

In justice to Dr. M. her medical adviser, when he heard her improvement in health, he recommended perseverance in the use of the medicines.

This valuable Medicine, being composed only of vegetable matter, or medicinal herbs, and warranted, on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are ungenial to the nature of man, and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age or weakest frame, under every stage of human suffering; the most pleasant and benign in its operation, and at the same time the most searching out the root of every complaint, however deep, and of performing a cure, that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, by merely swallowing a certain number of small pills, and being called a few extra times to the purposes of evacuation, with the least possible sensation of pain, or exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different from their accustomed habits.

These pills cure all cases, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging and yet the weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, because they clear the body of its bad humours, and invariably procure sound sleep. They are the safest and most efficacious medicine to take to sea; preventing scurvy, costiveness, &c.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humours; they soften, cleanse, and detach the acrimonious phlegm; are cooling, and allay the thirst. One, two, or three powders may be taken throughout the day, mixed in half a wine glass of water.

The genuine Medicines can be had of

WM. POMEROY, Alexandria, Sole Agent for the District of Columbia and its vicinity.

By whom the Pills are sold in packets of one, two, and three dollars each, and the Powders at 37½ cents per box, with printed directions; and also by the following Sub-Agents: R. W. Polkinhorn, between 9th and 10th streets, Pennsylvania Avenue; John Stillins, Navy Yard, Washington; and Thomas C. Wright, Georgetown; of whom alone can the Medicines be warranted genuine. By appointment of Dr. H. S. Moat, H. P. M., M. B. C. H., Brooklyn, New York, the sole importer of these Medicines.

Morrison, or the Family Adviser, price \$275; Practical Proofs, illustrated by numerous cases of cure, third edition, price 37½ cents; to be had as above.

ap 5—ft

## COLORS APPRENTICES WANTED, For the Patent Rope-Making Business.

I WILL take two or three Colored Boys, of unquestionable character, (none other will be taken) to learn the Patent Rope-making Business.

JOSIAH H. DAVIS.

## DR. MEAD'S ANTI-DYSPEPTIC, or STOMACH PILLS,

THE only medicine ever offered to the public, from which a radical and permanent cure can be obtained of all those chronic states of derangement of the digestive organs, constituting that complicated disease, termed Dyspepsia.

The duty which the proprietor owes to society, has induced him to adopt this mode of circulation, in order to give it a greater range of publicity, that it may thereby become more extensively useful than it could possibly be, were it confined within the private practice of any individual whatever. The diseases consequent on a morbid state of the stomach and bowels, are numerous, complicated, and, for the most part, very difficult of cure.

The proprietor of these Pills is happy in having it in his power to offer to all those who are afflicted with the above complaint, a medicine in which the most unlimited confidence may be placed, and, for simplicity of composition, may be given to children and patients of the most delicate habit. In every chronic case of stomach complaint, where the disease does not depend on a scirrhus, or cancerous state of that organ, (in which case no medicine whatever can do any good,) these pills will effect a certain and speedy cure, after the stomach of the patient has been cloyed with magnesia and chalk, and drenched with all the bitter potions that art could invent, to no purpose. They will most effectually remove all sourness of the stomach, not merely by neutralizing the acid, but by correcting that morbid state of the secretions which gives rise to it; and at the same time they are giving tone to the organs of digestion, they will renovate and give new life and vigor to the whole system.

Geo. Smith, Proprietor, For sale by WILLIAM STABLER.

## IMPROVED COMPOUND CHLORINE TOOTH WASH.

THE discovery of the Chloride of Soda and its uses, by Labarraque, of Paris, was an addition to the resources of medicine of the utmost importance as a neutralizing agent.

To counteract at once the principle of decay, which commencing imperceptibly, slowly gathers strength, and finally destroys, is the important service which can be derived from the use of the Chloride of Soda, when administered with skill and care. The diseases of the Teeth being, in the great majority of cases, the result of neglect and a gradual accumulation of the principle above alluded to, it became obvious, from the earliest experiments, that the Chloride was the proper remedy and preferable to powders, dentrifices, &c., of whatever kind or pretension. By a chemical analysis, it will be found that the greater proportion of the Chlorine Compounds so extensively in use, do not contain a particle of the Chloride of Soda, on the agency of which their efficacy must necessarily depend.
